Jayne,

I'm not sure whether this has gone out yet (whether my proposed edits are too late) and/or whether others already have responded. I've been out the past couple weeks and I'm catching up now. In the event I'm not too late, please see below.

Re: Bimonthly Progress Report on OR CZARA Progress being made toward meeting the January 30, 2015 decision deadline

Below is NOAA/EPA's bimonthly report on progress being made toward NOAA/EPA taking a final action on our proposal that Oregon has not submitted an approvable coastal nonpoint pollution control program (coastal nonpoint program).

- Posted all comments received on NOAA's website for public viewing at <http://coastalmanagement.noaa.gov/nonpoint/oregonDocket/publicComments.html>
- Sent letter informing Oregon that the agencies intend to take final action on our proposal that Oregon has not submitted an approvable coastal nonpoint program by January 30, 2015.
- Set up a schedule, categorized comments received into seven major categories and set up technical teams to conduct a technical review, prepare written responses to the comments and update the rationale, develop a set of legal and managerial issues that needs to be discussed.
- Conducting weekly topic team meetings, weekly technical team meetings, monthly managerial and monthly legal team meetings during the summer.
- Anticipate completing a majority of the response to comments and rationale documents by the end of the summer.

Feel free to contact me or Joelle Gore at \_\_\_\_ with any questions.
